

# How to obtain your license key

Instruction about how to get the license key, either software or hardware, for a given NextGen installation via License Manager software.

Online version: <https://nextgen.sant-ambrogio.it/KB473748>

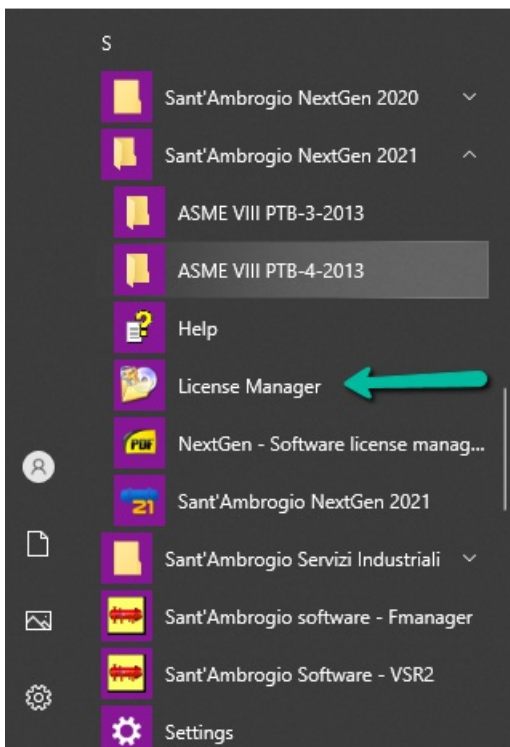

Latest update: 23 giu 2021

## Software license

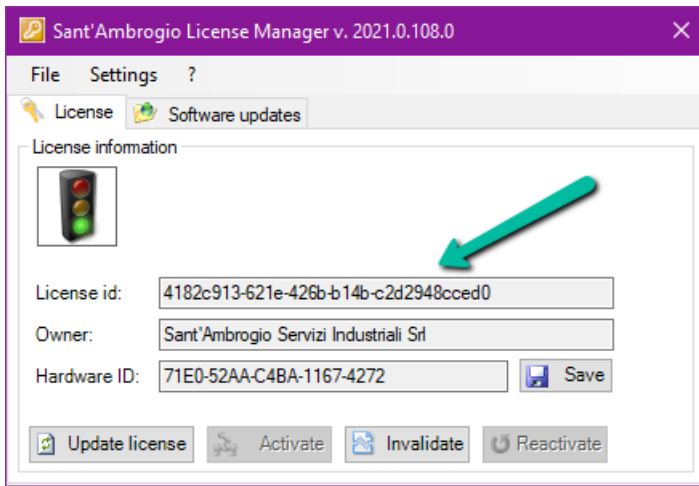

The license key for a software licenses is first communicated by Sant'Ambrogio upon subscription, or when activating a demo.

Subsequently, to retrieve the code, simply launch the *License Manager* program from the Windows Start menu, which is present in the *Sant'Ambrogio NextGen* program group.

*Attention: there may be more than one Sant'Ambrogio Nextgen program group, depending on the number of versions currently installed*

Once the *License Manager* is launched, the license key will be immediately visible under the *License id:* label

## Hardware license

The procedure is the same as described for the software license. The number obtained through the *License Manager* will be shorter.
