

The calculation report is truncated at the bottom of the page

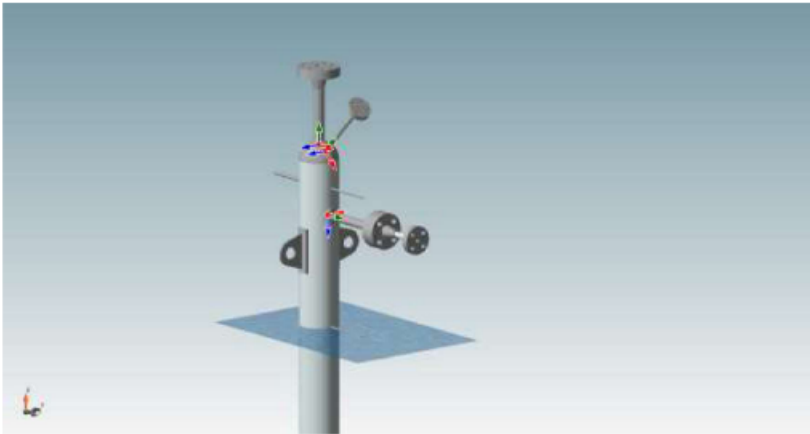

This article explains how to proceed with resolving a printing problem that can occur when the printer format is incorrect.

Online version: <https://nextgen.sant-ambrogio.it/KB921652>

Latest update: 26 set 2024

If the calculation report is truncated towards the bottom of each page and the footer is excluded from the printout, the default printer format is set to a format other than A4.

To correct this problem, simply set a default printer in Windows with the A4 format.

		Customer
		ID Number
		Revision 1
Calculation report Asme VIII Div. 1 Ed. 2021 - Metric Units		
Project: Item: Customer: Drawing: Revision: Date:		
Internal design pressure	$P =$	18.50 MPa
External design pressure	$P_{Ext} =$	0.10 MPa
Internal design temperature	$T =$	360.00 °C
External design temperature	$T_{Ext} =$	25.00 °C
Internal corrosion allowance	$c =$	0 mm
External corrosion allowance	$ce =$	0 mm
Joint efficiency	$E =$	1.00
Minimum design temperature	$=$	25.00 °C
		

Resolving similar problems

This problem commonly occurs when the default printer format is Letter, which has a different aspect ratio than A4.

However, it can also happen in other cases, such as with A3 or larger formats. In all cases, the solution to adopt is the one reported above.
